

**Part IV: Paragraph Response:** Carefully consider the comments by John F. Kennedy regarding our responsibility to play a significant role in the success of our country and government. Then, write an academic paragraph in which you support (agree with), refute (go against), or qualify (alter) Kennedy's claim. Use textual evidence to support your position. You will complete this on a Google doc, MLA formatted, and turn in to the *Google Classroom* repository "Benchmark JFK Paragraph." This is due within the first ten minutes of the next class period, but must be done *before* that class begins.

**(Text is available through your handout from class today, or you can access it from my website, too).**
